PROFILE

I recently completed the Biotech Career Foundations Certificate Program, designed and taught by the Massachusetts College of Pharmacy and Health Sciences. I am eager to leverage my transferable skills and understanding in biotechnology and laboratory processes to transition into an early-career lab operations role. I am an entrepreneur making my way to new beginnings, understanding the key values of dedicating myself to a better future and building a strong community.

Relevant Technical Training

- Basic safety training (SOP, GDA)
- Biopharmaceutical safety, Investigational New drugs, and Hazardous materials safety
- Recently received Biosafety and Bloodborne Pathogen and Chemical Hygiene trainings

Professional and Transferable Skills

- Data Analysis: Gave solutions or results in a transparent and proficient manner. Provided a break down on procedure & cost to complete each task before and after each job.
- Developing Relationships: Community building with customers and relevant specialists. Understanding the needs of the customer and being able to contribute my time to resolve future problems and giving references for other specific needs.
- Data Analysis: Confirm and investigate problems by understanding the initial issue to resolve in a timely manner.

EDUCATION

Bioversity – Biotech Career Foundations
Certificate of Completion

May 2025 - June 2025

South Boston High School
Diploma

September 2011 - June 2013

EXPERIENCE

Plumber

January 2013 - current

Frenchie and Son Plumbing, St. Croix USVI

- Installed, repaired, and maintained plumbing, water circulation, and filtration systems for residential and commercial clients, consistently meeting or exceeding local building codes and safety standards.
- Diagnosed and resolved complex plumbing issues, including leaks, clogs, and low water pressure, using advanced techniques like pressure testing, pipe replacements, and fixture repairs.
- Developed strong and lasting client relationships through clear communication, personalized recommendations, and a focus on excellent customer service, leading to repeat business and referrals.
- Managed multiple projects simultaneously, ensuring timely completion while maintaining high-quality workmanship, with a track record of finishing jobs on schedule and within budget.
- Responded promptly to emergency calls, resolving urgent plumbing issues while maintaining professionalism and ensuring minimal disruption to clients' daily routines.

Loader / Truck loader

Amarr Garage Doors, Lawrence, KS

June 2018 - March 2019

- Documented and coordinated final products to be shipped off to vendor from manufacturer.

- Optimized time by preparing work space and clearing safety zones before handling material.
- Utilized proper safety procedures to enhance a secure work environment on an hourly to daily basis.
- Operated equipment through safe guidelines by understanding symbols for hazardous / flammable materials, weight capacity and safe distance markers.
